To: Mike Heule <mheule@helixkc.com>, Adam Cox <Adam.Cox@jedunn.com>, Eric Nickeson <Eric.Nickeson@jedunn.com>, Kristine Sutherlin <ksutherlin@helixkc.com>, Louis Zarr <lzarr@designwithinsight.com>, Ryan Hartje <rhartje@designwithinsight.com>

Cc: Thomas Thomas <tom.thomas@gsa.gov>, Larry Harkrader <larry.harkrader@gsa.gov>, Michael Scarborough - 6PCC <michael.scarborough@gsa.gov>, Jeffry Cushing - 6PMX <jeffry.cushing@gsa.gov>, John Topi <john.topi@gsa.gov>, Brian McDevitt - 6PM <brian.mcdevitt@gsa.gov>

fyi... any idea / suggestions about how to best formalize and present JEDunn's email, Insulite's review, factory testing of last week, pending field testing (after hours break test of one of the temporary replacement doors presently installed) Helix's pending synopsis summary, progress with remedial mock-ups, and options for long term solutions?

Our report will be the basis of Brian's reply that is due 5/22 to Cy and Jason. So that Cy, Brian and others can review, I foresee our due date to be 5/15, or next Wednesday. Is a next Wednesday report possible?

Note Colonel Hoffmann writes about USACE engineering experts, structural defects and design flaws...

Thank you. RBFB P4 is working to formalize past failures, identify present conditions, implement remedial actions to correct present concerns, and identify options for long term solution.

That is perfect -

Cy - I have added Cindy so she is aware of the control also.
